

FACEBOOK ADS PRACTICE CAMPAIGN

Campaign Proposal

Prepared as part of a Digital Marketing Internship capstone project

Business	Tomar Digital Marketing
Business Type	Fictional Digital Marketing Agency
Platform	Meta Ads Manager
Campaign Type	Practice Campaign
Prepared By	Prince Singh Tomar

1. Imaginary Business Overview

Tomar Digital Marketing is a fictional agency created specifically for this capstone project. It is positioned as a small agency helping startups, small businesses, and other growing organisations strengthen their presence online.

The agency's service list covers Search Engine Optimization (SEO), Google Ads, Facebook Ads, Social Media Marketing, and Website Development. A Facebook Page and a supporting website were set up alongside this proposal so the practice campaign could be planned against a realistic setup rather than a blank slate.

2. Campaign Objectives

The primary objective for this campaign is Website Traffic. The plan is to bring relevant users from Facebook ad placements to the Tomar Digital Marketing website, where they can learn more about the agency and what it offers.

- Drive relevant traffic to the Tomar Digital Marketing website
- Build awareness of the agency among potential customers
- Promote core services, including SEO, Google Ads, Facebook Ads, and Website Development
- Encourage interested users to explore the website and learn more about available services

3. Bid & Budget Allocation

Since this is a practice campaign for a fictional business, the figures below represent a planned budget for the exercise rather than real ad spend.

Daily Budget	₹500
Proposed Duration	7 Days
Total Planned Budget	₹3,500

A modest, controlled daily budget was chosen to reflect a realistic test campaign for a small agency. Automated delivery and bidding will be used for the selected objective.

4. Ad Format Preference

A Single Image Ad is the preferred format for this campaign. It keeps the messaging focused, gives the branding room to stand out, and works well for presenting the agency's services alongside a direct call-to-action.

- Format: Single Image Ad
- Call-to-Action: Learn More
- Destination: Tomar Digital Marketing website
- Creative approach: clean business branding paired with a clear digital-marketing growth message

5. Target Audience

Location	India
Age Group	21–45 years
Gender	All genders
Audience Focus	Entrepreneurs, small-business owners, startup professionals, and people interested in digital marketing

Relevant audience interests for the campaign include:

- Digital Marketing
- Online Advertising
- Social Media Marketing
- Search Engine Optimization
- Entrepreneurship and Small Business

6. Ad Content Creation

A single-image creative will be prepared using the Tomar Digital Marketing branding, with the ad focused on business growth and the agency's digital marketing services.

Primary Text	Looking to grow your business online? Tomar Digital Marketing offers digital marketing solutions built to improve your online visibility and connect your business with the right audience. Explore our services and see how digital marketing can support your growth.
Headline	Grow Your Business with Digital Marketing
Description	SEO, Google Ads, Facebook Ads & Digital Marketing Solutions
Call-to-Action	Learn More

The creative itself will use a simple, professional layout built around a clear growth message, supported by the agency name and its key service areas. The final image will be finished before the campaign is set up in Meta Ads Manager.
